

"WHERE GREAT IDEAS ARE GROWING"

Okey Dokey Cranesbill*
Geranium pratense 'Okey Dokey'

Height: 18 inches

Spread: 24 inches

Spacing: 20 inches

Sunlight:

Hardiness Zone: 3b

Other Names: Meadow Cranesbill

Ornamental Features

Okey Dokey Cranesbill has masses of beautiful steel blue flowers at the ends of the stems from late spring to mid summer, which are most effective when planted in groupings. Its attractive deeply cut lobed palmate leaves emerge burgundy in spring, turning deep purple in colour throughout the season. The fruit is not ornamentally significant.

Landscape Attributes

Okey Dokey Cranesbill is an herbaceous perennial with a mounded form. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This is a relatively low maintenance plant, and should only be pruned after flowering to avoid removing any of the current season's flowers. Deer don't particularly care for this plant and will usually leave it alone in favor of tastier treats. It has no significant negative characteristics.

Okey Dokey Cranesbill is recommended for the following landscape applications;

- Mass Planting
- Border Edging
- General Garden Use
- Container Planting

Planting & Growing

Okey Dokey Cranesbill will grow to be about 18 inches tall at maturity, with a spread of 24 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 20 inches apart. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 10 years.

"WHERE GREAT IDEAS ARE GROWING"

This plant does best in full sun to partial shade. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This is a selected variety of a species not originally from North America. It can be propagated by division; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Okey Dokey Cranesbill is a fine choice for the garden, but it is also a good selection for planting in outdoor pots and containers. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers and foliage against which the thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
