

"WHERE GREAT IDEAS ARE GROWING"

Guardian Angel Hosta

Hosta 'Guardian Angel'

Plant Height: 18 inches

Flower Height: 30 inches

Spread: 3 feet

Spacing: 30 inches

Sunlight: ● ●

Hardiness Zone: 2a

Other Names: Plantain Lily, Funkia

Ornamental Features

Guardian Angel Hosta features dainty spikes of lavender tubular flowers rising above the foliage from mid to late summer. Its attractive textured oval leaves remain green in colour with showy creamy white variegation throughout the season. The fruit is not ornamentally significant.

Landscape Attributes

Guardian Angel Hosta is a dense herbaceous perennial with tall flower stalks held atop a low mound of foliage. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

This is a relatively low maintenance plant, and is best cleaned up in early spring before it resumes active growth for the season. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Insects

Guardian Angel Hosta is recommended for the following landscape applications;

- Mass Planting
- General Garden Use
- Groundcover

"WHERE GREAT IDEAS ARE GROWING"

Planting & Growing

Guardian Angel Hosta will grow to be about 18 inches tall at maturity extending to 30 inches tall with the flowers, with a spread of 3 feet. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 30 inches apart. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 10 years.

This plant does best in partial shade to shade. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid. It can be propagated by division; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.
